RE: Spill at North Star Aviation Fuel Station on June 30, 2008

Dear Steve;

We have been advised by Airport Board Chairman Dave Hedditch and Airport Manager Page Gough that a jet fuel spill occurred on June 30th at the North Star Fuel Station. We also understand that you have acknowledged to these Airport Officials that your business is responsible for this fuel spill because you were the operator of the tank. Therefore we consider your business directly responsible for the clean up of this matter

By this letter we are advising you, upon the recommendation of Airport Officials after consulting with the qualified engineering firm of PBS & J, to cease fueling any of your fuel trucks at the fuel station until you have installed a fuel proof container which would totally contain any other fuel spills that might occur until the full clean up of this spill is completed. This fuel proof container must be in accordance with the State Fire Marshall and a qualified Engineering Firm such as PBS & J who we understand has already begun some clean up as per your instructions.

Sincerely,
BOARD OF RAVALLI COUNTY COMMISSIONERS
